Vitamin D3, min	6,500 IU/lb
Vitamin E, min	6.5 IU/lb

Ingredient Statement

Molasses products, urea, condensed whey solubles, condensed soybean solubles, processed grain by-products, vegetable oil, magnesium oxide, salt, calcium carbonate, lecithin, sulfuric acid, sodium selenite, xanthan gum, copper sulfate, cobalt sulfate, ethylenediamine dihydroiodide, manganese sulfate, zinc sulfate, vitamin A supplement, vitamin E supplement, vitamin D3 supplement.

Start-up feeding: During the first week of feeding, place tubs within 100 feet of the loafing and/or watering areas. As animals become accustomed to the presence of the tubs, some repositioning may be necessary. Move the tubs closer to increase consumption or further away to decrease consumption.

Feeding directions: 24% with Mag Poured is designed to be self-fed to cattle consuming low to fair quality forage. Consumption of this supplement will vary depending upon the condition of the animals, quality and quantity of forage being fed and seasonal weather conditions. Cattle will typically consume from 1 to 2 pounds per day. Feed one tub per 15-25 animals and at least 2 tubs per pasture to ensure adequate intake by younger, timid animals. Place the tubs within 100 feet of where animals congregate (loafing, grazing, feeding, and watering areas). Feed tubs along with plentiful sources of forage, and clean, fresh water. If addition mineral and vitamin fortification is needed, provide a nutritionally balanced mineral/vitamin supplement containing salt.

CAUTION: USE AS DIRECTED: Consumption of selenium should not exceed 3 mg per head daily. For beef cattle on pasture only. **DO NOT PROVIDE STARVED ANIMALS FREE ACCESS TO THIS SUPPLEMENT.**

WARNING: This product, which contains added copper, should not be fed to sheep, or any species with a low tolerance to supplemental copper.

IMPORTANT: Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death. **DOES NOT CONTAIN RESTRICTED USE ANIMAL PROTEINS.**
