Instructions for Feeding

Self-Feeding: Offer HerdBuilder™ 14% Mag No Phos Garlic Mineral on a self-fed basis. Cattle should consume an average of 2 to 4 ounces per head per day. Provide one covered mineral feeder for every 20 to 25 animals. Mineral feeders should be located near a clean, fresh source of water. Mineral intake will vary depending upon the mineral status of the cattle.

Mixing Directions: Thoroughly mix the following levels of HerdBuilder™ 14% Mag No Phos Garlic Mineral with other feed ingredients to yield one ton of feed:

Daily Feed Intake (lb/head/day)	HerdBuilder™ Mineral (lb/ton)	Other Feed Ingredients (lb/ton)
1.0	250-500	1750-1500
5.0	50-100	1950-1900
10.0	25-50	1975-1950

The amount of this product used to balance the ration will depend upon the mineral levels of the ingredients and the stage of production of the cattle.

For additional information contact your HerdBuilder™ representative.

CAUTION: Use as Directed. Consumption of selenium should not exceed 3 mg per head daily.

WARNING: This product, which contains added copper, should not be fed to sheep or any species with a low tolerance to supplemental copper.

NET WEIGHT: 50 lb (22.7 kg)
